The International CALPHAD Conference was first held in 1973. Since then, it has provided to scientists and students with an interest in thermodynamics of materials an opportunity to meet, present and discuss their work in a friendly atmosphere. Topics include, but are not limited to:

- Ab-initio (first-principles) calculation
- Thermodynamic Modeling
- CALPHAD Assessments and Database Development
- Modeling of Diffusion and Phase Transformations
- Software Development
- Experimental Phase Equilibria, Thermodynamics and Kinetics
- Integrated Computational Materials Design/Engineering (ICMD/ICME)
- CALPHAD Applications in Chemistry, Physics, Geology, ...
- CALPHAD Applications in industrial processes

According to our tradition, there will be no parallel sessions. The program includes extended poster presentations, software demonstrations, time for spontaneous discussions... and social activities.
